Todos los números de parte de TCM fueron creados tomando las dimensiones de la flecha, el diámetro exterior y la altura, junto con el material del labio y el tipo de cada caja.

Por ejemplo, el número de parte 12192TB nos indica que sus medidas son 1.2 pulgadas de flecha, que se ajusta a un alojamiento de 1.9 pulgadas y que tiene una altura de 0.2 pulgadas.

Las siglas "TB" indican que el sello está compuesto por doble labio con resorte en caja sencilla. La ausencia de una "V" para Vitón®, "P" para Poliuretano o "S" para Silicón entre el número de parte y el tipo indican que el retén es de Nitrilo.

La designación de Hypalon se identifica con un "-H" al final de cada número de parte, por ejemplo 12192TB-H.

En este catálogo aparecen los No. De Parte de mayor movimiento, nuestro inventario está formado por alrededor de 10,000 retenes diferentes. En caso de requerir un No. De Parte que no aparezca en este catálogo, favor de solicitarlo a su distribuidor.

*Todos los números de parte de esta lista se señalan exclusivamente como referencia y no implica que sean piezas provenientes del fabricante.
